DETAILED ACTION

1. This action is responsive to communications: original application filed 03/15/2001.
2. Claims 1-20 are currently pending in this application. Claims 1, 9, and 16 are independent claims.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-8 drawn to a method for generating a marked-up document based on the tone symbol document, classified in class 715, subclass 501.1.
 - II. Claims 9-20 drawn to a system for automatically generating marked-up documents based on a digital stream having at least one tone, classified in class 704, subclass 235.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Invention in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the subcombination is for *generating a tone symbol document based on the digital stream; wherein the tone symbol document includes a tone symbol for generating each*

tone in the digital stream. The subcombination has separate utility such as dictation software for receiving the digital stream and response thereto for generating corresponding text.

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Maikhanh Nguyen whose telephone number is (703) 306-0092.
